# About Us

We're more than a freight forwarder; we're a logistics company focused on innovative solutions that help clients achieve their goals efficiently and reliably.

With a vast network, deep local knowledge, and strong ties to major shipping lines, Altun Egypt delivers integrated logistics solutions. Our commitment, respect, and drive for results have earned us client trust and loyalty, making us a top freight forwarder in Egypt.

## Our core values

### Customer Focus

We focus on your business needs—enhancing performance, creating value, and supporting your products and customers worldwide.

### Quality assurance

Delivering on commitments with consistent, on-time, and secure shipments, building long-term trust with clients and partners.

### Long term Connection

Offering eco-conscious shipping options that reduce environmental impact without compromising efficiency.

# LiquA Flexitanks

We offer LiquA flexitanks, recognized as the highest-capacity flexitanks in the market. **unlocking 12% more payload compared to conventional alternatives.**

**UP TO  
27,000 L  
CAPACITY**

## Unmatched Capacity & Payload Efficiency

LiquA's high-capacity tanks let you ship more in fewer containers—cutting costs and maximizing productivity.

## Streamlined Loading & Discharge

Their bulkhead-free design speeds up setup and dismantling, reducing labor requirements and turnaround time.

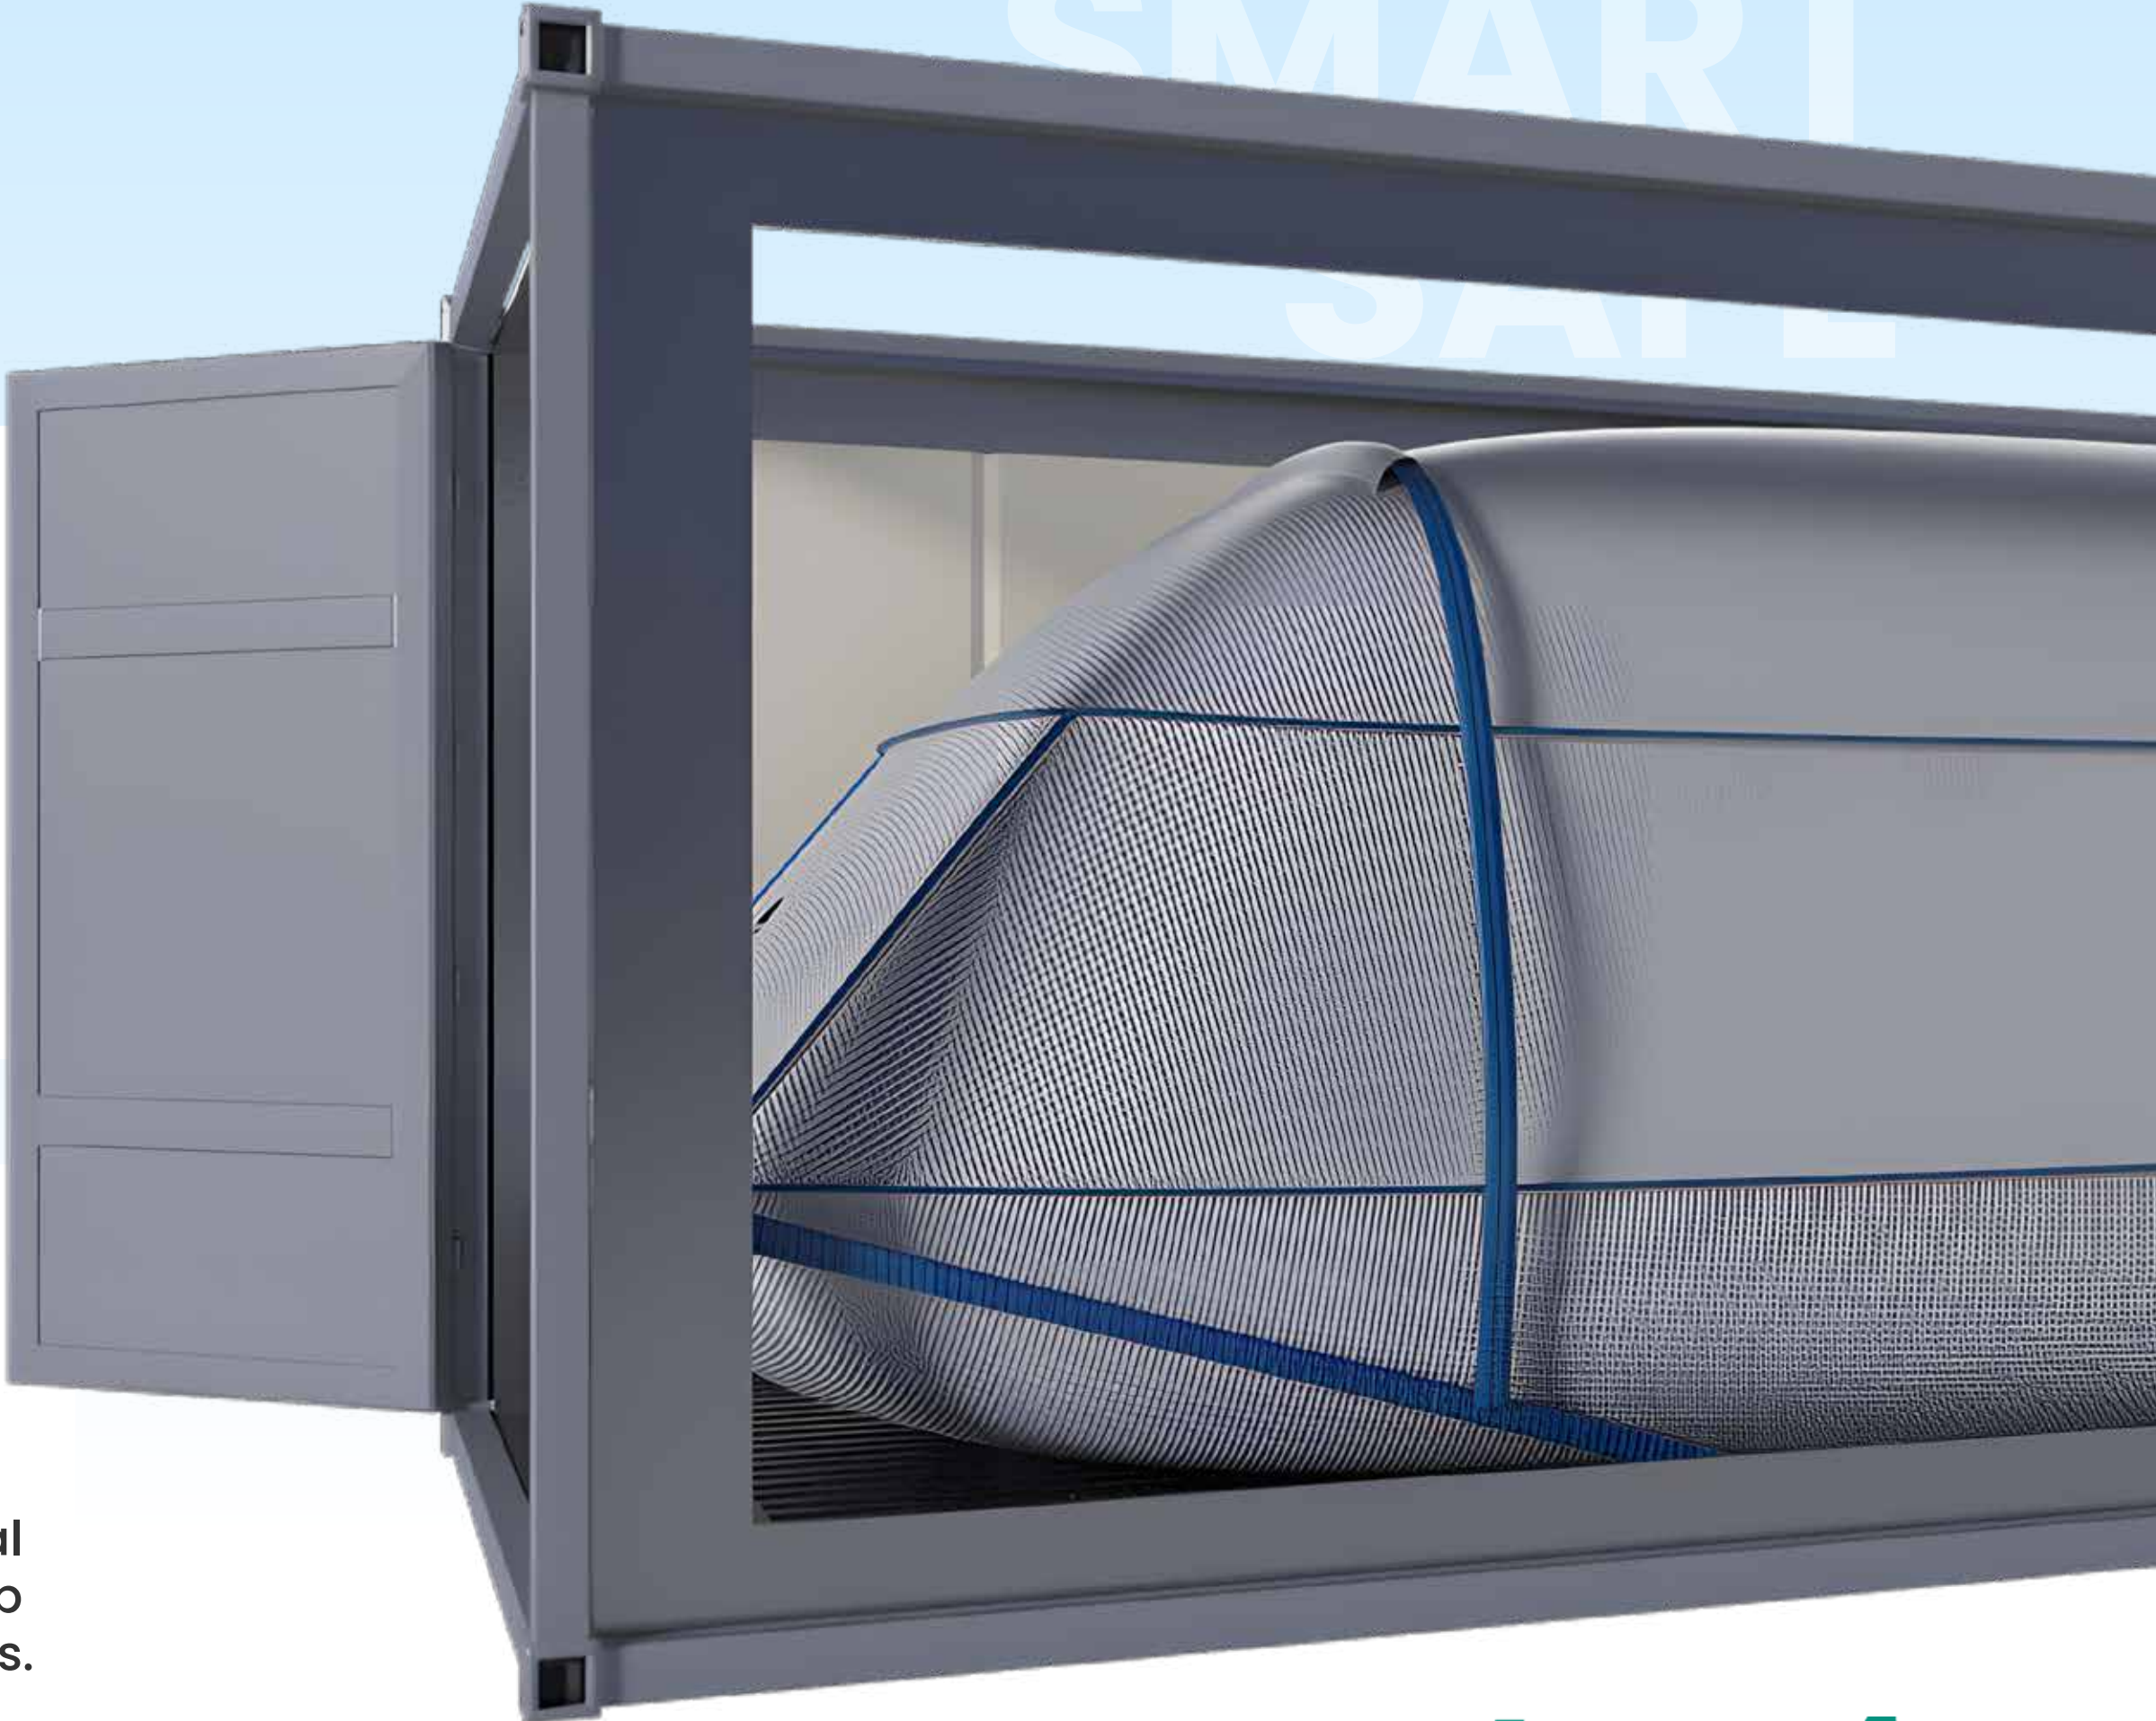

## Superior Safety & Stability

Anti-wave and harnessing technologies ensure cargo remains stable during transit—protecting both product integrity and containers

## Sustainability Advantage

Reduced weight and fewer material components mean a carbon footprint up to 40% lower than conventional flexitanks.

**LiquA**

# Superdry

Your Shield Against Moisture Damage

## Why is SuperDry the Best Moisture Absorber?

### Advanced Moisture Protection, Global Standards

Super Dry's desiccants are recognized for their exceptional moisture absorption capabilities, helping your goods arrive in pristine condition—whether inside packaging or exposed in containers.
